

Flowcrete Floor Proves Just the Tonic for Pharmacy

A state-of-the art pharmacy store chose Flowcrete's fast track flooring concept Flowfast to complete its contemporary look.

Grant's Pharmacy selected flooring from the leading manufacturer for its store in County Wexford. The pharmacy has an up-to-the minute, contemporary look, which is perfectly complemented by Flowcrete's Flowfast Terrosso.

Delivering a terrazzo-like finish underfoot, the floor was designed and installed by Martin Kirton Flooring, based in Ardahan, County Galway.

Aside from its great looks, Flowfast Terrosso is the ideal solution for the fast paced world of retail, due to the fact it is ready for use just hours after application.

Martin Kirton Flooring – which has recently opened a flooring showroom at its Galway headquarters - came up with a stunning finish for the pharmacy, using a sweeping pattern of multi-coloured lines and circles in a mix of grey, black, cream and blue.

Utilising the latest in resin technology, Flowfast Terrosso offers a floor finish that looks good and stands up to all the demands associated with floors for public spaces.

In most cases, it is ready to use just two hours after application, allowing other works to continue with minimal disruption.

The floor also offers good slip-resistance, can withstand thermal shocks and impact, and is hardwearing. Furthermore, its seamless finish delivers an easy-clean finish that makes it easy to maintain.

These qualities, coupled with its decorative style – available in a wide-range of colours and styles – make it the ideal choice where an attractive floor needs to be installed quickly.

Nigel Cook of Flowcrete, said: "Flowfast's ability to be applied and ready for use within two hours is ideal for the busy retail sector and its seamless finish not only looks good, but is hardwearing and slip resistant."
