

Flowcrete – Taking Transformation To New Levels In Airports

Specialist flooring company Flowcrete has developed a comprehensive brochure aimed at the airport industry.

Entitled 'Transforming Airport Environments' the guide brings together a broad range of information - including details on sustainability and sector specific case studies showcasing flooring projects across the globe .

Information on the specification of Flowcrete floors within the different areas of an airport environment is also featured.

This includes Flowcrete's Flowfresh hygienic floors for catering areas, Isocrete floor screeds, Deckshield car park decking, specialist Skydrol-resistant finishes for hangars and stylish products for passenger terminal areas, such as the seamless terrazzo, Mondéco.

Flowcrete offers a free flooring consultation service for airport specifiers. This includes a detailed examination of the functional needs of the floor and an investigation of the substrate condition, with all information documented in a full written report.

Alan Dean, sales director of Flowcrete, said: "This brochure offers a broad range of information for specifiers involved in the specification of flooring systems, in a unique format, covering a wide

variety of detail in a comprehensive manner.

“Through our extensive portfolio of products, we have flooring solutions that meet the functional requirements of airport environments.”

Within the airport sector, Flowcrete offers its unique Floorzone concept, which involves the installation of acoustic system, underfloor heating, floor screed and seamless floor finish, all carried out by one highly trained Flowcrete approved flooring contractor on site.

Other products available from Flowcrete for airports include the Flowcoat SF41 industrial floor system, ideal for maintenance and plant areas, and the unique two-hour flooring concept Flowfast, a decorative finish ready for use just two hours after installation.

Floors from Flowcrete have been specified for airports around the world, including Dubai International, Manchester International and Luxembourg-Findel.
