

Flowcrete – Supporting UK Industry At MAINTEC 2009

Flowcrete's innovative two-hour flooring concept Flowfast, the ideal flooring choice in the economic downturn, will be one of the many systems showcased at MAINTEC 2009.

Flowfast is the ultra fast-track resin system from the UK-based flooring manufacturer, which is generally ready for use within just two hours of application.

Such fast installation capability cuts down on the cost of labour and means a manufacturing site can be fully operational after an overnight application programme, delivering significant cost savings.

Flowfast has been specified for major industrial projects throughout the UK and the rest of the world, and is recognised for its exceptional durability - offering longevity with minimal maintenance.

As well as Flowfast, Flowcrete will also be showcasing its Flowfresh range, which utilises the natural purification powers of silver to fight problems such as E-Coli, salmonella, C Diff and MRSA.

These qualities, coupled with excellent wear resistance and ease of maintenance, make it the ideal choice for the healthcare, food processing and pharmaceutical sectors.

Flowcrete will be exhibiting at MAINTEC 2009, the Birmingham-based exhibition, which takes

place between 17 and 19 March at the NEC.

Alan Dean, Flowcrete's sales director, said: "These two systems represent just a small example of the range of innovative products Flowcrete offers for the individual sectors of UK industry.

"As the economy takes a downturn, it is vital that specifiers choose a correctly specified, fit-for-purpose floor to reduce factors such as cleaning time and installation time."

Flowcrete provides performance floors for prestigious clients including Bentley Motors, Jaguar, Vauxhall, Nestlè, News International, Astra Zeneca and Roche to name but a few.

The company has its headquarters in Cheshire, 30 offices around the world and eight manufacturing centres of excellence. More details about its work in flooring are available at www.flowcrete.co.uk or contact advice@flowcrete.com

See Flowcrete at MAINTEC at Stand 72.
